Also Professor of English
at
City College

ADOLPHE COHN

Formerly Head of
French Department
at Columbia University

Dr. JOSE F. de FERNANDEZ

Formerly Professor of
Romance Languages
at St. Francis Xavier College

ROBERT J. DAMEN

Also on the Staff of
Romance Languages
at City College

HENRY SNYDER CARR

Formerly Professor
of Mathematics at
City College

JAMES I. CONWAY

Also on the Staff of
Mathematics Department
at City College

WILLIAM J. KEARNEY

Formerly on the Staff
of
Manhattan College

ALFONSO ARBIB COSTA

Also on the Staff of
Romance Languages
at City College

Dr. EDGAR A. BEDFORD

Also Head of Biology
Dept. at Stuyvesant
High School

❑ A SCHOOL IS JUDGED BY ITS TEACHING STAFF

❑ In college it matters a great deal what school one comes from

Rhodes School Building

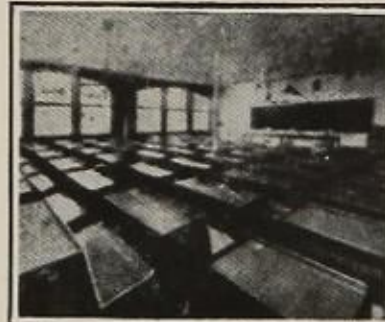

"Rhodes" occupies an entire fire-proof School building erected and constructed in accordance with the latest municipal laws and regulations affecting modern school buildings

At "Rhodes" each classroom is perfect

There are 3 thoroughly equipped science laboratories

The "Rhodes" library is open free to all "Rhodes" students

The Rhodes Auditorium seats 400

Before deciding upon any school attend "Rhodes" as a visitor
Obtain additional information. It will be worth your while

"New York's Model School"

From High School to Business

Read This Free Bulletin Before You Start Out To Secure A Position

The change from School to Business is not an easy one to make successfully. It is not that business men, as a rule, discredit the value of a high-school education. They know that this education does increase your ability to think, to reason, to decide.

You are confident that the education secured at high-school has equipped you for worth-while work in business. It is disheartening then that business men insist that you begin at the bottom at the lowest weekly salary.

Why Begin at the Bottom When You Have Had Four Years of Good Training?

Business Men insist that you begin at the bottom because your school education has been general, while the work in their office is made up of specific detailed duties. It is necessary to learn to do these specific tasks, usually beginning with the least important duties in the office.

It is possible for any high-school graduate, before going to work, to become familiar with some of the methods employed in modern business offices. The graduate may also learn, under the guidance of instructors experienced in business, how to do definite things, such as the recording of cash receipts and payments, the calculation of pay-rolls, the keeping of card-files or loose-leaf records of purchases, rates, and stock inventories, the use of adding machines and of duplicating appliances. Equipped with this knowledge, the high-school graduate's entry into business can be made with a reasonable assurance of immediate success.

The Free Bulletin "OFFICE TRAINING" tells how this knowledge may be gained in twenty lessons.

The high-school student who is determined on success in business will also be interested in the Fall classes at the Pace Institute. Ask for free bulletin (32 pp.) "Accountancy and Business Administration" giving outline of preparation for Executive Positions in Modern Business.

Pace Institute

HUDSON TERMINAL

THE
CLINTONIAN
Seventeenth Annual
of the
DE WITT CLINTON
High School
June 1917

ISSUED BY
THE BOARD OF PUBLICATIONS
ON BEHALF OF
THE SENIOR CLASS

J.H.SCHARF

On this, the twentieth anniversary of the foundation of the DeWitt Clinton High School, the editors deem it but fitting that this annual of the seventeenth graduating class be dedicated to those teachers who have been with Clinton through all its twenty years of growth and change.

Miss Ellen E. Garrigues

Miss Maude M. Frank

CLASS OF JUNE, 1917

SENIOR

I listen, and voices they whisper,
Whisper of years that are past.
Voices....grow shriller and crisper
Insistent on mem'ries unasked.

I laugh, but my laugh it is hollow,
Hollow and broken and sad;
I laugh: yes, I laugh at the morrow,
But my heart knows that I am not glad.

I talk of success and of college,
College I greeted with joy.
But now that I'm facing the knowledge
That I am no longer a boy,

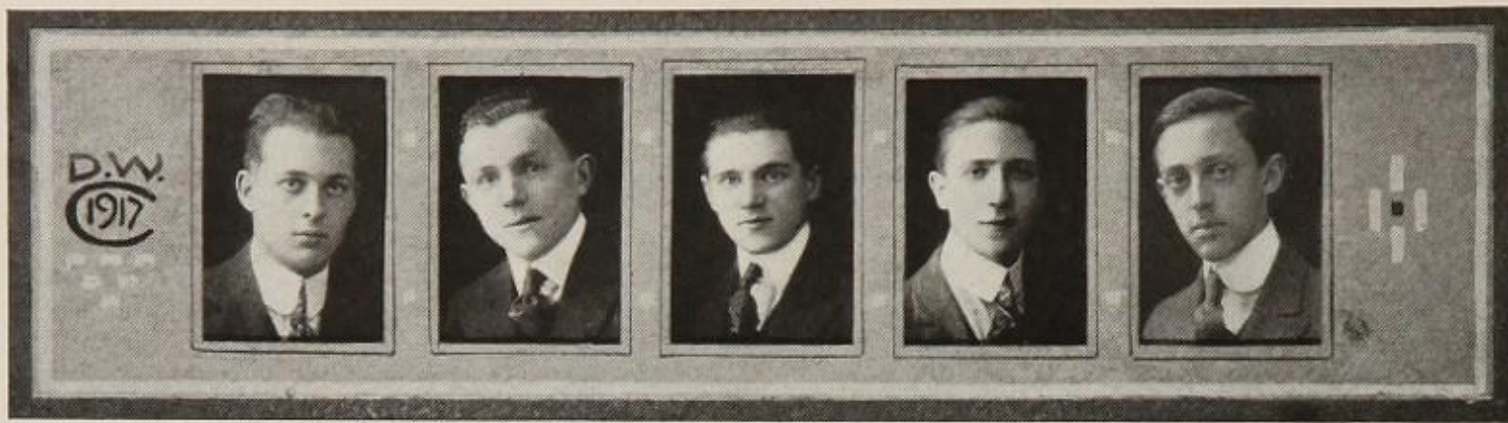

I am mute, and my heart it is rended,
Rended with memories dear
Of the years that for me have ended
And left me mine own course to steer.

But I'll steer it with faith and with courage,
Courage to maintain the right.
And evil shall never discourage
The goal that is ever in sight.

*I listen, and voices they whisper,
Whisper of years that are past....*

*I laugh, but my laugh it is hollow,
Hollow and broken and sad....*

IN RETROSPECT

A.B.

WHAT Clinton has accomplished in the past year well deserves more recognition and publicity than has been accorded by the various agencies through which important news is circulated. Even this "Clintonian," the publishing of which has been a victory of economy and experience over highly exorbitant prices, falls a little short of the mark when the magnitude of the task that has been attempted is considered. Everything, it seems, combined to oppose us in whatever direction we extended our energy, but luckily we have always managed to "come out on top." The whole world has experienced the same abnormal reaction, everything is topsy-turvy, and since we have entered the war, this situation has been felt still more acutely. The war spirit, at this writing, seems to have invaded the school, constant interruption because of national crises has disturbed our tranquillity, things heretofore considered impossible are beginning to happen. So far, however, we have surmounted all difficulties, we have acquired the **habit** of winning victories, for that is truly an American custom.

Most of the important Football Games were played at the Polo Grounds, a decided improvement over our own field. The football team, one of the most stalwart and dynamic elevens ever entrusted with Clinton's standard, fought through a most successful season, under the guidance of Coach Cook and Captain Hoving. They seemed to lead a charmed existence—until they encountered the Stuyvesant eleven, and tasted defeat. However, we could not be selfish enough to expect only victories from our teams, we like to test them; to see how well they can stand a beating. Our experiment this time proved productive of effective results, for this same team conquered Commerce—and achieved the goal of their ambition.

The Soccer and Basketball teams likewise proved to be true "Wearers of the 'C'". The soccer team literally walked away with itself, and finished a successful season by beating Commerce by an even greater score than had been compiled by the Football Team. Basketball showed a similar tendency, for Coach Palmer had his men so well trained that they actually did not know how to be defeated. As usual, Commerce suffered because of this efficiency, for in a game which lasted from nine P. M. until midnight the Commerce team met defeat, cultivated its acquaintance, and went home fondling it.

Clinton's Cross-Country Team, a collection of the finest specimens of American youth, showed its heels to Stuyvesant, when Captain Locker forged ahead of Saracheck, and maintained his lead. The Columbia Interscholastic Meet was likewise a Clinton Victory, and Locker brought us third place in the "Champs."

The work of the Track Team this year has been tremendous, but even though laboring under unexpected difficulties, we have, as usual, excelled in the performance of our task, which was to line our trophy case with prizes. Olenik, the lightning quick track artist, accumulated a collection of medals which even a king might envy. Our 120 pound relay team was absolutely without par, and the field department of our track team was developed to so great an extent that it was responsible for our winning the Princeton Indoor Track Meet.

The Baseball Team likewise demonstrated the value of good coaching plus experience and physical ability, and even though the team was not supported as generously as was the football team, the results of the season have been equally glorious. The Tennis and Rifle Teams of this year duplicated last year's record, even though they have received meagre and negligent publicity. The Swimming Team, because of its manifold victories, deserves considerable praise. Coach Cook has developed as fine a team as ever represented Clinton, and its success is a fitting reward for his services.

On reading the foregoing, however, the impression that Athletics is all that is encouraged in Clinton is likely to be gathered. On the contrary, we have other departments, other activities, which though they do not attract an outside whirlwind attention, are just as important as our most important sport. Clinton's Assemblies have been made most interesting by the appearance of speakers of eminent repute, such as Thomas Mott Osborne. At other times debates have been held, the winner of the Metz Medal for debating being Edward J. Reilly. Laurence A. Kahn, whose speech, "Patriotism and Internationalism" brought him second place in the Swarthmore Contest, succeeded in capturing the Magpie Cup and the Douglas Fairbanks Medal for Oratory. George J. Macy won second prize while Edward Eliscu was awarded third. George J. Macy also won the contest for a representative at the Colgate Extemporaneous Speaking Contest, but lost out at Colgate.

The development of our Dramatics during the past year has been unprecedented. The Christmas Play "My Turn Next" showed the Dramatic Society at its best. Mr. Michaels of the English Department, conceived the happy idea of donating an ambulance to the Red Cross, and Mr. Clarke and Miss Freund, the duet which coached "A Midsummer Night's Dream" to success, decided to turn over the proceeds of the Varsity Show to the Cause. So on

the evenings of June 8 and 9, "If I Were King" was produced, and judging from the attendance, the Ford Ambulance is assuredly a reality.

Not only have we actors, but our Opera Singers have also worked to add fame to our greatly honored name for who ever heard of any other High School but Clinton producing an Opera? This year, Gilbert and Sullivan's "Patience" was produced in the Auditorium, and literally belied its name. Another great production, a departure from ordinary entertainments, was the Music Festival held on May 5th in the Auditorium. Truly, we have an active music department.

The "Clinton News", this year, is the only High School paper in the United States which sells for one cent. Other High Schools have been forced to raise the prices of their papers, but Clinton's remain the same. The "Magpie" cannot be criticized, unless from a favorable standpoint, for there is absolutely no comparison between it and other High School papers. The "Red Book" of this year was so well prepared and so carefully edited that other high schools were compelled to imitate its style and to look into it for ideas. And the fate of the 1917 Clintonian is left in your hands, for we have spent valuable time and labor in presenting our best efforts to you, hoping to merit your unanimous approval. The After-noon Help Classes have done much to alleviate brain-fever, in fact, they have become one of the most important institutions in the school. Only a few good things have we mentioned.

We hope that the Class of June, 1917, will be justly remembered; and that their Clintonian will be associated with that remembrance, by our successors. Next term, practically all positions of importance will be vacant, for they are now held by outgoing seniors. The Class of June 1917 may justly be proud of itself; it seemed to be a body of Clintonites who deeply revered and faithfully served their Alma Mater. We only hope that succeeding classes will further awaken and stimulate that Clinton Spirit which has not lain dormant these several years; we hope that the Spirit of Victory will always pervade and claim Clinton's youth, and that all succeeding classes will entertain a really affectionate feeling for their Alma Mater, such as is ours.

FOREWORD

YEAR after year, for twenty consecutive years, Clinton has been developing athletes and putting first rate aggregations in the field, on the gridiron, on the track and in the pool. Year after year these teams have brought honor and glory to the Red and Black, in the more material forms of trophies, cups, banners and the various other reminders seen on the walls, in the cases, in the gymnasium, and in Dr. Paul's office. And every year has had its athletic celebrities, or stars. The past year has not been an exception. In fact, it has been one of the biggest athletic years Clinton has ever enjoyed. We have made Commerce realize that we are her superior in athletics, by trimming her from all angles.

Football started off victoriously, and went along smoothly until we hit Stuyvesant, or, rather, until they hit us. Be that as it may, Stuyvesant was defeated at the hands of Morris, and our boys in turn held the Morris lads, with this result, a triple tie. Then came the big game with the Blue and Gold. We garnered two decisive points through a safety, early in the game. A hot fight ensued, which meant nothing in our youthful lives, as Commerce finished on the short end with a goose egg. Captain Hoving, Jamieson and Fitzgibbons figured greatly in making the season a success.

Then came the biggest, most successful sport of the year, Track. And again we have a triad of stars, Olenik, Clarke and Carter. Olenik was perhaps one of the fastest and most consistent runners seen in interscholastic competition in many a day. He leaves behind a record far too lengthy to be tabulated here; but it may not be amiss to state that he holds the 100 and 200 yard dash championship for the past season. Clarke, our sensational junior, is but starting on a career which promises big things. He holds the junior 100 yard dash championship in addition to numerous first places in both the junior and senior high jumps. And last but not least comes Al. Carter, the 440-yard Champ. and starter of the mile relay.

Clinton won the three big meets of the season, the Stuyvesant Meet, the Indoor Champs, and the Princeton Meet. We also have the relay title, having won both the half mile and mile relay champs. Yes, the 1916-17 team has set a precedent which will be hard to beat.

And the swimming team managed to keep its head above water too. We put it over Stuyvesant in the dual meet, but the Champs.—well that's a different story.

Basket-ball boomed under Mr. Palmer's coaching. The city schools couldn't get near us and we succeeded in winning the city championships, and almost the greater city champs., if it hadn't been for Bushwick and Newtown. Captain Klatsky and Guminoff aided materially in making the season a success.

The same can be said of Soccer, under the captaincy of Fitzpatrick, as has been said of basket-ball. The Red and Black was represented by a plucky, full-of-fight team.

Vice-President JOSEPH QUITTNER, 1905

Secretary BENJAMIN HOROWITZ, 1909

AFTER MANY YEARS

By ELIAS LIEBERMANN. '00

Graduation Day

A day in June that sang of hope and youth
Comes leaping into memory; a day
Of riot and remembrance, when, forsooth,
Our senses, left us, yet held sway.

Diplomas, speeches, music mingled there
With wildest nothings: bacchanalian yells
Proclaimed our sovereign right to walk on air:
Our gowns were motley and our caps had bells.

And ere that star-gemmed night forever fell
Into the sepulchre of yesterdays,
With forward-leaping hearts we bade farewell
To all that was left for rougher ways.

Now

Perhaps we have what men may call "success;"
Perhaps we have not: earth's a strange abode.
The gods of chance may miss us in their guess
Or hit us, as we plod along the road.

Who cares? We only ask for friendship's hand,
To clasp it as we did in days of yore,
To sit around the fires in memory's land
And tell the tales of things that went before.

The aeons in His sight are but a day
And mighty empires dream their dreams in vain;
So come, my mates, though decades pass away,
Give thanks to God, our loyal friends remain!

TWENTY YEARS OF ATHLETICS

By EMANUEL HAUG

THE school is rounding out its 20th year in athletics. From the time the Athletic Association was organized, Oct. 1, 1897 to the present day the student body of the school can look back upon it as a time of success. True, not every year was a successful year; we had our ups and downs the same as in every walk of life. But taking all in all the number of years of success far surpass those of defeat. From the very beginning of the school year, Sept. 13th, 1897, there was talk and agitation of forming an Athletic Association, but due to the fact that both teachers and pupils were new and strangers to each other it was deemed wise to get a solid organization of the school first before branching out into activities. However, on Oct. 1, 1897, the first meeting of the student body was called and then and there it was decided to organize an Athletic Association. The Officers elected were:—F. A. Bailey, President; C. R. Richards, Secretary; H. A. Palmer, Treasurer; the Faculty Committee consisted of Messrs. Dean, *Chairman*, Anthony and Haug. By unanimous vote, football, basketball, baseball, track, and tennis were recognized as the backbone of school sports. Football practise was held in Central Park and games were arranged and played as well as could be done under the circumstances. Indoor meets were held in the gymnasium of the school preparatory to our first Annual Meet which was held in Durland's Riding Academy, April 30th, 1898. I dare say that a majority of the boys who competed at this meet had never before seen or taken part in any such affair but nevertheless the meet was a great success.

Regular schedules for Basketball, Baseball, and Tennis were arranged and considering that practice facilities were very deficient the teams made a splendid showing.

With the "green material" now whipped somewhat into shape and form the following year was one of great hopes. The enthusiasm exhibited by the students for athletics was so great that the literary societies caused the following article to be printed in the "Boys High School Bulletin" (our weekly school paper):—"dissatisfaction is expressed by members of the literary societies that so much time is taken up with athletics. It is felt that although athletics ought to figure prominently in school life, literary work is of at least equal importance." The Peter Cooper High School, now known as Morris, which opened its doors at the same time we did, proved to be our main rival. As neither school had a reputation it was deemed wise to arrange several games with each other in each branch of athletics for practice sake. Our boys were gradually rounding into shape and made an excellent showing. Baseball, now branching out for the first time, was the only team that showed poor results. The Tennis, Hockey, Gymnastic, and Gun Teams were also beginning to get active and show aggressiveness towards other schools.

Before the close of the year schedules were arranged with other high schools, especially with those in Brooklyn and Jersey City. One school, however, sent us back word—"Go get a reputation"—. We did—and this is what happened to our friends in Brooklyn when they finally condescended to meet us in athletics in 1903-4:—Football, 11-0; Basketball, 18-13; Baseball, 8-4, all in favor of Clinton. Clinton's reputation was made and hereafter was welcome everywhere. Going back, however, to 1899—during this year a Public High School Athletic League was organized among Morris, Manual Training, Jersey City and Clinton. This League was in existence four years during which Clinton scored as follows; Football, 1899; Basketball 1900; Track Meets, 1899, 1900, 1901, and 1902. (The cups are still on exhibition in the Trophy Case in the corridor.). Our indoor meets were held annually and every year some new feature was added. In order to bring out more material a special meet for first year boys was held and proved to be a great success. Second teams in other branches of athletics were being organized and the coaches began

to bolster up their first teams with all available material possible. June 1900 arrived and put a damper on all sports. The first three year class was about to graduate and with it went many of our athletes who were eligible for college entrance. These athletes made history for Clinton and as long as there are alumni living the names of those fellows will ever be held in memory.

During these past years the athletes furnished their own wearing material and also paid their own expenses as the treasury never had enough money to furnish same. Great credit must be given to the boys for the spirit they showed to make Clinton a success. Especially worthy of comment is the Track Team. These athletes practised in Celtic Park, L. I., and it was not an unusual sight to see them returning to the city about 8 and 9 o'clock in the evening, having been out there since 3 o'clock. During these years Clinton's record was as follows:

FOOTBALL

<i>Year</i>	<i>Won</i>	<i>Lost</i>	<i>Tied</i>	<i>Points</i>	
				<i>Clin.</i>	<i>Opp.</i>
'97	5	2	—	84	28

TRACK

Public High School Athletic League Champs.

1899	62	Points
1900	63½	Points

With many of our crack athletes gone the year 1901-2 opened inauspiciously but as there was a good nucleus of material the season ended better than was expected. Especially strong was the Football Team which rounded out its schedule of 8 games with 6 victories and 2 ties with a record of 112 points to 11. Basketball and Baseball, too, came in for their share of the spoils, the former making a record of 6 wins, 3 lost, and 1 tied with the score 281 points to 172, and the latter 11 wins, 5 lost with 124 runs to 94. The Track Team again won the P. H. S. A. L. meet with 45 points. It also won the championship of the Columbia University Interscholastic Meet from a field of 36 competing schools. The relay team also won their event at the St. Bartholomew Games. This was the first time that Clinton was directly entered in outside competition and certainly the boys deserved all credit. Hockey, Tennis, and Gymnastics stepped out before the public this year and made creditable showings, the hockey team winning 3, losing 3, and tying 1 game.

"Everything comes to him who waits—providing he waits long enough—even hard luck." Clinton waited for 5 years and finally got it—got it good and plenty. For the next few years Clinton got the short end of the deal everytime. Once in a while there was a sudden outburst of victory only to be downed with added interest the following week. In 1903 the Public Schools Athletic League was formed and this led to the disbanding of the P. H. S. A. L. after Clinton had won the 4th annual meet with 45 points. Before the slump came, however, Clinton's reputation had spread beyond the city limits and invitations poured in from other cities asking for games. Central H. S., Phila., was selected as a worthy foe, but oh—the results. During the several years that athletic relationships were held with Central High the basketball team was the only team that managed to show a victory. Faculty-Varsity Baseball games were yearly events, but after being badly trounced by the varsity teams, the faculty decided to play the Seniors henceforth. Second teams in football, basketball, baseball, and the midgets in track were organized and played schedules of their own. In many instances the first teams made a poorer showing than their understudies, Inter-Class games were also arranged and created a good deal of competition. Although there was a terrific slump in all athletic activities for some years occasionally, however, one of the other teams managed to score a victory as for instance in 1905 the track team won the Novice Championship and in 1908 the City Championship.

In 1903 a new star appeared on the athletic horizon which helped to eclipse the shining light of Clinton. This star was Commerce. All our love and friendship to Morris was now transferred to Commerce and Commerce received us with open arms. In football Commerce had its own way. In a series of Hockey games Clinton won the banner. In Rifle shooting Clinton won the honors from the four schools competing both indoors and outdoors.

In 1905 all the annexes of Clinton were brought together in our present home and a new Athletic Organization was formed. Although we previously had a Constitution it was deemed wise to change the same to suit our surroundings. With this change in constitution also came the awarding of insignia. Three major sports were recognized—football—baseball—and track for which a "C" was given. The minor Sports were awarded "C B T" for Basketball; "C H T" for Hockey; "C T T" for Tennis; and "C R T" for Rifle. Later on after the midgets made such wonderful showings in their own class (for by this time all other high schools organized midget teams) the "C M" was awarded them. These midgets not only competed in track, but there sprang up in short order midget football teams, basketball teams, a midget relay team which won first place in the Barnard and the Poly Prep. Games in 1908 and Second Place in the P. S. A. L. Indoor Champs.

Although the major sports received a set back new activities were organized for those boys who could not make the other teams. Among these were the Rifle Team, 1905; Soccer 1906; Cross-Country Team, 1906; Swimming Team, 1907; and the Crew, 1908.

In 1905 the Rifle Team won the first Sub Target Rifle Tournament defeating Commerce, Morris, and Boys' High. Later in the season they won the Interscholastic Rifle Match at Creedmoor defeating teams from High Schools, Columbia University and Military Academies.

Clinton underwent its cure with patience and with the opening of school in 1910 new life came among the student body. The largest Freshman Class entered this year. This meant naturally an increase in the teaching staff and it was Clinton's good fortune to secure teachers, who in their days were college athletes. Our principal wasn't slow in getting these men on the job and the result was that a general upheaval in all branches of athletics took place. The old coaches were gently and politely sent to the scrap-heap with the thanks (?) of the student body and principal.

The old adage "A new broom always sweeps clean" proved true. What a revelation that year was! Although very little material of good quality was left from the previous

year enough was on hand around which new teams could be built up and later years would naturally show the results. All teams made creditable showings but the honors went to the Rifle Team who captured the Interscholastic Sub-Target Championship of the City and the Astor Cup, emblematic of the Interscholastic Championship of the United States on the rifle range.

The following years brought the success long looked for. In all branches of sport Clinton showed the way with one exception. Football and Commerce—they seemed to be inseparable. Why it was that Clinton could only win a game every four years is a problem many would like to hear solved.

The Basket-ball team again won the city championship in 1911 with a clean record of seven games won and a score of 153 to 112 points. This year the Track Team also won the P. S. A. L. Outdoor Championship. The Rifle Team again won the P. S. A. L. Whitney Tournament. The Swimming Team also won the High School Championships with 30 points.

The following year brought success to the Football Team, (beating Commerce 3—0); Swimming Team (championship again); and Track Team (Princeton Relays and Outdoor Champs). The Basket-ball Team suffered the severest blow any team could get. After beating Stuyvesant in the regular P. S. A. L. schedule they found themselves tied with Stuyvesant at the end of the season, and in the play off lost to their opponents by the score of 28—19. The following four years were nip and tuck throughout, the football team managing to win one game against Commerce (1916), and two from Stuyvesant (1913, 1916). The Track, Basket-Ball, Swimming and Tennis teams all managed to capture one or more city and interscholastic championships, to wit:

TRACK:—Penn Relay Class A. ('13); Indoor and Princeton Champs ('14); Dual Meet Commerce (series '15).

BASKET-BALL:—P. S. A. L. Champs ('13); P. S. A. L. Champs ('14).

SWIMMING:—P. S. A. L. City Champs, C. C. N. Y. Champs ('13); C. C. N. Y. Champs ('14); C. C. N. Y. and P. S. A. L. City Champs. ('15).

TENNIS:—P. S. A. L. Champs. ('16).

The Crew fared worse than any other Clinton team ever did. With victory twice within their grasp, they met with hard luck and never were able to place. All other sports held their own and made good showings in their tournaments.

In November 1912 all activities in the school underwent a great change. Heretofore each activity was a club of its own having its own officers, exacting its own dues and conducting its work to suit itself irrespective of any other activity. At this time was formed the General Organization of the school whose sole object was to take control of ALL activities exacting one due for the year which would entitle a student to take part in as many activities as he cared to, and supplying the necessary funds for material for carrying on the activity. For the Athletic Association this General Organization was most welcome for in the past years our indoor meets were a financial failure, and the Athletic Association was not in a position to be any too generous with supplying outfits. A committee on supplies was appointed by the Principal consisting of Messrs. Krauss, and Taylor and Haug (chairman, to purchase all necessary equipment for the various teams). The appointment of this committee was twofold; first it was its duty to make up a budget for each sport and present same to the council of the General Organization with the necessary explanations as to the why and where for and second it was its duty to purchase all equipment by asking for bids from the various athletics good houses. It evolved upon the Chairman to act as custodian of all athletic material, to distribute some and collect same at close of season. After the first year the economic side

of the General Organization was already seen. With but one or two exceptions all athletic material given out to our athletes was returned and the Athletic Association was ready the following year to start the boys out without spending a cent for equipment for all sports of the coming season. In round numbers the value of the equipment for all sports returned was about \$1,000.00. This policy is still being carried out and every year the expense for equipment is growing less. The boys do not try to get away with the suits anymore for they realize that the money spent for same comes from the pockets of the student body, and they feel that it would be robbery to get away with anything. All materially returned is thoroughly washed and cleaned before storing as a necessary precaution.

For many years it was the fond hope of those interested in athletics to have suitable appropriate bulletin boards erected on which could be inscribed such information as would be of interest to the students and which would act as an incentive. At the suggestion of our principal the matter was brought to the attention of the General Organization council and was received with enthusiasm. Without discussion \$130.00 was appropriated for three large bulletin boards and \$200.00 for inscribing. In due time all work was completed and Clinton can now boast of being the only high school in greater New York who can point with pride to the boards and show the names of all Captains of our athletic teams since 1897. But not only this—along the edge of the running track shields have been painted containing the records made by students in open competition. These records are of great interest to the boys as some of them have stood for a good many years.

But there is still one more bulletin to be placed and it is the fond hope of those deeply interested in athletics that it will not be long before it is realized. This is the board to contain a record of scores of all sports with schools with whom we have a regular yearly schedule such as Morris, Commerce, Stuyvesant, etc.

In conclusion I think I may say for the teachers interested in athletics that Clinton has always endeavored to play clean, straight sport, to live up to the eligibility rules, to take defeat like men and to treat their opponents as gentlemen at all times and instilled with this spirit the student body has at all times given its hearty co-operation to the teams. May the star of victory never be dimmed for long for Clinton.

Following is a resume of all activities: FOOTBALL, BASKETBALL, BASEBALL, TRACK, etc.

etc.

Year	Won	FOOTBALL			Score

The Wand of Health the Stepping Stone from School to Success

Use it for ten minutes every day; a clearer head and a brighter eye will result.

Regular physical exercise is essential to consistent studying.

Your success in business depends on your school effort -- your success at school depends on the physical preparation you make now.

Start right--use the **Consolidated Expanding Bar-Bell** daily.

Your Health is your Best Friend

Care for it in your youth and it will care for you in maturity.

Do not permit your studies to interfere with your exercise when a few minutes spent in the use of the Health Wand will keep you in good condition.

The **Consolidated Expanding Bar-Bell** is different from the ordinary wand; it is inlaid with finely tempered springs which makes it adjustable to the strength of the user. Price, \$2 50

A Suggestion for Clinton Students

Do you aspire to an executive position? It is safe to say that over 75% of the officers and executives of the larger firms and corporations, who have received their appointment during the past five years, were promoted from Secretarial or Stenographic positions. Shorthand is the best stepping-stone to success in business and Eastman-Gaines is the best School in which to learn it.

We can convince any unprejudiced person that Eastman-Gaines is the best business school in the United States.

The Linotype

The quickest way for a young man to turn his efforts into cash is to learn a trade. In the short time of three or four months we will teach you to become a Linotype Operator. Cost of tuition only nominal. Earnings large. Employment easily procured. If interested, ask for particulars. Our free booklet will surprise you.

**NEW YORK MERGENTHALER
LINOTYPE SCHOOL**

244-246 WEST 23rd STREET
New York City

The United States School OF SECRETARIES

542-544 Fifth Avenue, New York City. The oldest and pre-emiently the most successful school of its kind in the country. Conducted by College Professors and Practical Business Men, prepares for and obtains excellent Secretarial Positions. Salaries range from a minimum of \$840 per annum for beginners to \$2500 for those with experience. The U. S. Secretarial School is **NOT A BUSINESS SCHOOL GIVING A SECRETARIAL COURSE**. It is an **exclusive school** for refined and ambitious students and **the only one** that devotes **its entire time** to the training of High School and College Graduates for responsible Secretarial positions. Day and Evening Courses. Write for Catalogue and lists of successes.

SIX SCHOLARSHIPS ARE AWARDED ANNUALLY to High School and College Graduates, subject to open competition. Particulars and application blanks on request. Enquire for special summer rates. Reservations should be made in advance.

Prof. J. P. Meagher, M. A. (London University), Director. Originator of Secretarial training in America, Senior Professor in two of the leading University Colleges in New York City.
Telephone Vanderbilt 2474

COMPTOMETER OPERATING AS A VOCATION

To ambitious girls it is a desirable vocation, because the work is Interesting and Important, and the Salaries paid are liberal.

In connection with the sale of Comptometers, we maintain a School of Instruction in the Operation of the Comptometer. We furnish Comptometer Operators to our customers for permanent positions.

Some of the Advantages our Course offers to the Students are:

1. The course is Economical:
 1. Because it takes only a short time to complete the Course.
2. The Cost is Reasonable.
2. Because the number of classes we instruct is governed by the demand for operators, we have no Comptometer School Graduates out of positions.
3. The salaries earned to start are more liberal than the average paid for most clerical work.
4. The advancement for the competent Operator is rapid.
5. The work is interesting and important and the field is not crowded.

The requirements for entrance to a class are a knowledge of commercial arithmetic, intelligence, and a serious desire to enter business.

We will start a class in May and one in June. Full information may be obtained to—

COMPTOMETER SCHOOL
350 Broadway, New York City

Girls who desire to enter Business will be interested in our free booklet—"BETTER METHODS OF ACCOUNTING."

The competent Dental Surgeon receives a quicker return of income and has a less exacting life than any other professional man.
